920-746-2234

Door County Land Use Services Department

3rd Floor
920-746-2308

Door County Soil and Water Conservation Department

3rd Floor
920-746-2214

“An estimated 34 million Americans get their water from private ground water wells, which are not subject to EPA regulations. Private ground water wells can provide safe, clean water. However, contamination that can cause sickness also can occur in well water.

If you have a well, you should take steps to protect it and have the water tested annually to make sure your water is safe.”

—Centers for Disease Control (CDC)

Water testing kits from Analytichem LLC, Baileys Harbor Wastewater Treatment Plant, Ephraim Well Water, and the UW-Oshkosh Environmental Research and Innovation Center (ERIC) Lab are available at the County Departments listed above.

Payment needs to be made to the Water Testing Facility when you take your sample to them.

WATER SAMPLING

Do you need to test your well water?

Door County has several places where you can obtain a water sampling kit to test your well water.

Door County Government Center

421 Nebraska Street
Sturgeon Bay, WI 54235
